

PittieLove Rescue Inc. is an all volunteer, foster home based rescue dedicated to the care, understanding, rehabilitation and adoption of American Pit Bull Terriers, one of the most abused and misunderstood dogs of all time. We work closely with local shelters, animal control and other rescues. We rescue dogs that are often on "death row", strays and occasionally owner surrender dogs. Once the dogs are rescued, they are placed into loving foster homes, provided with quality veterinary care, lots of socialization with people and animals of all ages. Our dogs are up to date on their vaccinations (age appropriate) and are always spayed and neutered, and micro-chipped. All of our volunteers are experienced Pit Bull owners. Our adopters and potential adopters receive detailed education about the breed and thorough information about the dog they are interested in adopting.

Each dogs temperament is carefully evaluated. We cannot accept dogs into our program that show aggression towards others animals. We do recognize the breeds potential of developing this trait so we prefer to place as only pets or with a compatible dog of the opposite sex.

Our strict adoption policies that include home visits, personal and vet reference checks help to ensure that our rescued dogs go to their forever homes and never suffer from abuse or neglect again.
